Att. Mr. Tony Rowe

Dear Tony,

Thank you for your letter of 1st June and congratulations with your new company - we wish you and your brother luck and hope that the companies and population are ready to accept and use your new and fascinating new ideas.

As you see we have also established a company. Its main activity for the time being is to arrange exhibitions, display, decorations etc, and Bente has changed her job to be employed in the SOPAX DISPLAY. She has already been to Paris twice for installation of exhibition material, which we are leasing as a ready made stand.

As you have probably already found out, we shall not be able to come to the Royal Show, as I was busy last week with many foreign visitors. In the coming week we are going to our small farm to build a house for our newly accuired shæep (two of them will be slaughtered shortly). It is the Texil race, which should give some excellent lamb roast. The Vibes spent a weekend with us there last month, and the menu was mainly on trout and salmon, caought in the adjacent river. We would hereby like to invite you and your family to spend someddays with us at the farm - preferably in the summer when it is really a beautiful place and I am sure that Nick would love it also. A nice man with a 12 year old son is living there to take care of the place. I need not say that if you have the chance to come over we are expecting you to include a visit with us.

Anyway lets keep in contact - our home address is indicated above, and private tel. 45 - 8 - 46 37 07.

With love toLiz, Nick and yourself
