## Red and blue - Emborg's football colours

EMBORG ALL STARS is the **modest** name given to our newly created Sports Club in Aalborg. Under the chairmanship of Sporting Lisbon fanatic, Ruy da Silva, the club is a member of the Aalborg Firma Sports League.

For the time being the new-born ALL STARS-Club has only a Football team, but other sports will, little by little, be added to their activities, Badminton, table tennis etc.

The EMBORG ALL STARS 7-man football-team is now playing in the 3rd Division of the Aalborg Championship, and so far we can say that they are like the best part of a sandwich: »in the middle«.

The »Emborg Post« is the first of what we hope will be many papers to carry a photograph of the EMBORG ALL STARS.

An 11-man ALL STARS team is also available, and challenges to it have already been issued by EE Frankfurt, and by the British Consulate, who would like to see the EMBORG Footballers playing against the team from a 270 man British Naval Frigate visiting Aalborg early

June. However, the agenda of the ALL STARS is so fully booked that it will not be easy for them to accept all the invitations they have been receiving (like all other Stars . . .).

A 7-man — I beg your pardon — girls-team is also under preparation and will probably enter the local Winter in-doors championship sometime in October this year. Needless to say, the advent of this ladies-team is awaited with more than usual interest.

## Our travellers

Travel has continued unabated since our last issue, and Erik Emborg has been a regular commuter on European Airlines. Trap Nielsen made two trips to Santo Domingo to discuss matters concerning Indulac and to Venezuela and Ecuador.

Gunnar Ertmann has been in Lebanon, Saudi Arabia, Ethiopia, Kenya and French Somaliland discussing dairy interests.

West Africa, in the form of Ghana, Nigeria and Liberia, were visited by John Mortensen, whilst Jesper Boels Pedersen will soon be going to the other extreme and will be visiting his customers in Greenland.
